Updated version of one document.

Pat Shaffer, if you printed the one sent to OTAQ materials last night then you DO NOT need to reprint this. It was the correct version.

Thanks, Paul

Subject: Today's Fuels / RFS Meeting Agenda

Importance: High

Team,

The following are the topics we'll cover at today's meeting:

1. Reset Rule – Draft Briefing Materials (This is the focus of today's meeting. Materials attached)
2. Letter from the Coalition For RNG re: Cellulosic Biofuel RVO Market Manipulation by Obligated Parties (Verbal Only) - NOTE: There was a fair amount of email traffic about this yesterday. Likely more to come today. We can discuss an interim response and / or approach for a fully responsive letter. Also, Mr. Escadaro had invited us to participate / speak at their upcoming conference in San Diego. I respectfully declined due to schedules but offered a presentation by phone or video. In light of this letter, we would still need to coordinate closely on any materials related to their "asks".
3. Update on other Activities
 - a. Pathways / Petitions (Algenol and others)
 - b. Pathways III
 - c. Etc. (Anything to Add Team?)

Thanks, Paul

Ex. 5 - Deliberative

Looks like this will be one of the briefing papers to be discussed with Chris Grundler tomorrow.
I will forward the other one (a Q & A document) separately.
